UVK (Ultra Virus Killer) Crack + [Latest 2022]

UVK is a free, easy-to-use PC optimization utility. Thanks to its modular design, users can pick and choose which tools they want and have access to all of them. The tool is very intuitive, with a straightforward, well-organized interface, which makes it easy to use. UVK is designed to be intuitive and easy to use, but you will need to purchase a license if you want to unlock all its features. You can also use it to fix common Windows errors and remove junk files. The main window of UVK (Ultra Virus Killer) is neatly organized and displays all the available sections you can access so as to optimize your PC. Fix common Windows errors and remove junk files. You can start with the System Booster component where you can scan your computer for a wide range of errors, such as invalid file or shell extensions, broken ActiveX/COM objects, junk files or invalid shortcuts. Additionally, you can use the dedicated uninstaller to remove the applications you no longer use, verify their file signature, navigate to their registry key or search for details on Internet. Due to this tool, you can also make sure that no traces are left once the app is uninstalled. Protect the registry and autorun apps. UVK also comes with an immunization tool that can help you prevent changes to most vulnerable areas on your PC, such as the registry, Windows startup or Windows Explorer. While this does not replace a fully-fledged antivirus solution, it can be used as a complementary utility. You can also use UVK to apply some fixes to your PC, such as freeing physical memory, creating a restore point, creating a backup of the registry or killing all non-system processes. You can also reset various Windows to default values, defragment all drives, empty browsers' cache or rebuild icon cache. Manage processes and autorun entries. In addition to all the mentioned fixes, UVK also includes a process explorer, autorun manager and other specialized tools that should only be operated by experts. If configured correctly, the functions provided by UVK can help you protect your PC against malware or faulty software, but you will need to purchase a license if you want to unlock all its features. UVK (Ultra Virus Killer) Features: "System Booster" Scan, repair and restore all your Windows errors. See and repair all Windows errors without need to restart PC. Uninstall, repair and repair your apps. Get
