How to use this prefab: 1. Turn on DH_breakpoint on your region in the UIG. 2. Turn on any of the instances of the prefab. The prefab have 6 instances so you have the possibility to switch between foreground and background zones and turn on or off DH_breakpoint. 3. If you want to use a different colour for your zones, you have to add a second instance of the prefab in your zone and switch between the colours. If you want to use DH_break
